# LABComply

Simplify your lab compliance and reduce labor intensive processes

Promote quality testing, reduce testing errors and support patient and staff safety within your facility.

MedTrainer's LabComply is a cloud-based software that provides a comprehensive resource for managing all aspects of CLIA testing including safety, controls and documentation.

The Centers for Medicare and Medicaid Services (CMS) and state departments of health have documented widespread deficiencies in waived testing. Inaccurate testing, lack of training and oversight may have the potential for serious health affects including patient harm and death.[1] Protect your patients, staff and business with LabComply.

Patient & Staff Safety

Resources and training to implement, track, and maintain best practices for lab testing and OSHA compliance safety training:

- Sharps injury prevention
- Personal protective equipment
- Safety data sheets (SDS)
- Pretest instructions and quality control (QC)
- Pandemic precautions
- Staff competency assessment

Admin & Engineering Controls

Step-by-step guidelines for equipment and test kit set up. Supports compliance with federal, state, and local regulations:

- Set up considerations
- Storage requirements
- Policy and procedure management
- HIPAA security and privacy
- Infection control and prevention
- Specimen collection and handling
- Biohazardous waste guidelines

Automated Documentation

Maintain equipment QC and preventative maintenance logs, receive safety alerts and generate standard compliance reports:

- Access package inserts
- QC documentation
- Expiration dates and lot number tracking
- Automated error alerts
- Equipment and user history
- Program compliance reports

[1]The Centers for Disease Control and Prevention (CDC) Division of Laboratory Services and Standards recommends "Good Laboratory Practices for Waived Testing Sites to promote quality testing, reduce testing errors and enhance patient safety. MMWR 2005;54(No. RR-13). COLA White Paper: "Federal Government Questions Quality In Waived Testing. The Hard Facts and What Can Laboratories Do Now?" 2013

LabComply is modular and includes important CLIA equipment documentation.

- Set up is easy and can be completed within 24-72 hours of sign up
- Automatically assign training and assess competency before testing
- Educational courses are concise and to the point, OSHA and HIPAA training included
- Comes complete with COVID-19 interim guidelines, training and operational resources

The Clinical Laboratories Improvement Act (CLIA)
- CLIA Waived Testing Overview
- First Time Waived Testers
- Reading Package Inserts
- Manufacturer Procedure Manual
- Patient Identification
- Reporting Results
- Specimen Labeling Requirements
- Specimen Handling Requirements
- The Facts about Point-of-Care Testing
- Ongoing Waived Testing Requirements
- Reducing Errors and Injuries in Phlebotomy
- Quality Control Frequencies and Documentation

HIPAA and Protected Health Information Security
- HIPAA for CLIA Laboratories
- HIPAA, Social Media and Texting Compliance
- Cyber Security

OSHA Hazard Recognition and Solutions in Laboratory Settings
- The Bloodborne Pathogen Standard
- Fire Safety and Response in the Lab Environment
- BioHazard Waste Management: Local, County, State and Federal
- Hazardous Communication and Chemical Safety (Hazcom) Global Harmonized Standard (GHS)
- Preventing Needlesticks and Other Sharps Injuries

COVID-19 Resources
- Principles of Cleaning and Disinfecting Reusable Equipment
- The Importance of Hand Hygiene
- Respiratory Hygiene and Cough Etiquette

MedTrainer®: the award-winning software solution for **training, compliance, and credentialing** now brings you a comprehensive solution for **lab compliance** that is adaptable to patient care and retail health settings.

Take a look at how easy and helpful the LabComply Toolkit is for your facility.
